

The Congress

The 1st International Congress of the German Equine Veterinary Association (GEVA) will take place from November 7 to 8, 2014, in Munich, Germany.

We are highly delighted to invite you to this unique event in one of the most attractive regions in Germany! Speakers from Europe and overseas will present a broad and exciting scientific and educational programme.

The first International Congress of GEVA will take place in connection with the 20th Eurocongress of the Federation of European Companion Animal Veterinary Associations (FECAVA) and the 60th Annual Congress of the German Small Animal Veterinary Association (GSAVA). We are expecting more than 100 companies to exhibit their latest products and services in the joint industrial exhibition.

Munich, the "Metropolis with heart", combining science and technology with culture and hospitality, will offer you an unforgettable guest programme. Nearby you find Germany's highest mountain, the "Zugspitze", beautiful lakes and castles.

Congress Venue - ICM

The International Congress Centre Munich (ICM) - one of the most modern congress centres in the world - offers an ideal setting for the GEVA congress. A clear design, spacious meeting rooms, excellent equipment and the exhibition area with plenty of natural light create an atmosphere in which you will feel completely comfortable.

Scientific Committee

- Prof. Dr. Karsten Feige
Hannover, Germany
- Dr. Eberhard Schüle
Dortmund, Germany
- Prof. Dr. Michael Röcken
Starnberg/Giessen, Germany
